

READING & WRITING

- ✓ Timing is important in this paper: spend about 50 minutes on the Reading component (**Parts 1-5**, 35 questions) and 40 minutes on the Writing component (**Parts 1-3**).

Reading

- ✓ Read each text carefully before you try to answer the questions.
- ✓ Remember that you do not need to understand every word of the text: you may read an article on mathematics just to find a number!

Writing

- ✓ Don't worry too much about making grammar mistakes in Writing **Parts 2 and 3**. Communicating is the important thing.
- ✓ Make sure that your handwriting is clear and easy to read.

LISTENING

- ✓ Look at the questions, text and pictures and think about what possible kind of information you are going to hear.
- ✓ Answer all the questions, even if you are not sure – you could get it right!

SPEAKING

- ✓ Listen to your partner's answers and show that you are interested in what he or she is saying.
- ✓ Try and forget that you are doing an exam. Remember the examiner wants you to do well!
